

Councillor Kennedy to move:

Willowfield Parish Community Association

“This Council congratulates Willowfield Parish Community Association on receiving a national award from the Christian Funders' Forum for the Best Transformative Community Project for Vulnerable Young People. This community-based project has, since 2002, engaged with thousands of young people, raising self esteem, promoting cross-community understanding and addressing issues such as bullying, self-harm and eating disorders.

In acknowledging this Award, the Council pays tribute to voluntary organisations across the City which engage positively with vulnerable young people in economically disadvantaged communities. As a Compassionate City, we encourage both individual and corporate responsibility in providing for the needs of the most vulnerable people within our Society.”
