3.2

The following motion has been received:

Food Allergy Safety in Parks, Play Areas and Leisure Centres

“This Council recognises that severe food allergies are a major public health issue, affecting many children and adults across Belfast. Belfast City Council is aware that allergen or allergen residue (such as dairy, peanut, or tree nut oils) left on park play equipment and benches can trigger allergic reactions, including in rare cases anaphylaxis, when a child or adult with a severe allergy comes into contact with it.

Belfast City Council acknowledges public parks and play areas should be safe, accessible, and inclusive spaces for everyone, including those with allergies. This motion builds on the UK's first National Allergy Strategy, launched in April 2026, which calls for a whole-society approach to allergy awareness - extending that principle to everyday outdoor spaces.

Therefore, Belfast City Council resolves to:

1. Introduce a dedicated Food Allergy Awareness Campaign across all Belfast City Council managed parks, play areas, and leisure centres, including brief allergy-awareness guidance for park services and leisure centre staff.
2. Design and install clear, child-friendly signage at park entrances and play areas, encouraging park users to:
 - Wash or wipe hands after eating and before using shared play equipment.
 - Consume food only in designated picnic areas rather than on or around play equipment.
 - Immediately dispose of all food waste in the bins provided.
3. Ensure adequate waste bin placement near play areas and park entrances/exits to facilitate safe disposal of food waste and packaging
4. Provide anaphylaxis awareness training for leisure centre staff, including recognition of symptoms and safe use of adrenaline auto-injectors (EpiPens/Jext), and review whether Council-managed leisure centres should hold spare adrenaline auto-injectors for emergency use, in line with the legal provisions already used by schools.
5. Report back to Committee within six months on implementation, including signage rollout, bin placement, and leisure centre staff training.”

Proposed by: Councillor Bower

Seconded by: Councillor McDonough-Brown

3.3	The motion calls upon on the Council to undertake a number of actions in relation to food allergy safety in parks, play areas and leisure centres. The People and Communities Committee is responsible for the management of the assets included in the motion, and the motion will be referred to that Committee in the first instance. <u>Financial and Resource Implications</u>

The Council particularly welcomes the Shared Island funding secured to bring the proposed Sailortown Bridge through its next stage of design and planning, alongside the support of partner organisations which will ensure that this phase is fully funded. The Sailortown Bridge has the potential to transform this part of Belfast. It would reconnect Sailortown with the waterfront, create a new link to Titanic Quarter and open up parts of our maritime heritage which have been inaccessible for too long. It would support regeneration, improve walking and cycling connections and create new opportunities for communities on both sides of the Lagan. This is a once-in-a-generation opportunity to deliver a major piece of legacy infrastructure for the people of Belfast. The Council will now begin discussions with the Department for Infrastructure, the Shared Island Unit and all relevant partner organisations to establish the full cost of delivering the bridge and how the funding required to make it a reality can be secured.” Proposed by: Councillor Carl Whyte Seconded by: Councillor Brian Smyth 3.3 The motion calls upon on the Council to working with DfI, the Shared Island Unit and partner organisations to determine the full delivery costs and identify funding needed to bring the proposed Sailortown Bridge project to completion. 3.4 The Strategic Policy and Resources Committee is responsible for strategic planning, investment and partnership engagement and the motion will be referred to that Committee. <u>Financial and Resource Implications</u> 3.5 None associated with this report but there will be finance and resource implications in relation to the substantive motion.
