	<u>NIFRS</u>

	Health, safety and welfare
3.11	Officers from the Service will engage with the applicant and event organisers in the lead up to future events to ensure all documentation and technical information is in place.
3.12	Additionally, officers will inspect the site during the build of the event space and following its completion to ensure they are satisfied all safety and management procedures are in place.
	<u>Noise</u>
3.13	All event organisers seeking to host musical entertainment at the event space will be required to provide a Noise Management Plan which will be provided to the Environmental Protection Unit (EPU) for evaluation. Council Officers work with the promoter in order to assess the noise that may be generated from the event and to minimise the potential for noise disturbance.
3.14	Members should also recognise that noise generated by outdoor concerts is likely to lead to some level of disturbance for local residents. Even if guideline levels are met there is no guarantee that complaints will not be received. Conversely, if a recommended level is exceeded this may not necessarily lead to complaints as people may be prepared to tolerate the event because it will only last for a limited period of time.
