

Councillor Groves to move:

Motor Neurone Disease

“This Council calls on all Members and officers to sign the Motor Neurone Disease (MND) Charter. This five-point Charter recognises the rights and priorities of people living with MND and their carers, sets out what good care looks like for them and is designed to raise awareness and understanding of this devastating disease.

The Council also requests the Strategic Policy and Resources Committee to give consideration to hosting a civic reception within the City Hall and for the City Hall to be illuminated for that event in appropriate colours to allow campaigners to raise awareness on this important issue.”
