

Last update: BC - 20/12/22		Indicator	Performance level	Priority
<b>Trees and Forest Structure</b>	T1 - Relative tree canopy cover	Good	High	
	T2 - Size (age) diversity	Moderate	Medium	
	T3 - Species diversity	Moderate	High	
	T4 - Species suitability	Moderate	Medium	
	T5 – Publicly owned trees	Good	Low	
	T6 – Publicly owned woodlands & natural areas	Good	Low	
	T7 – Trees on private property	Good	Low	
	T8 – Other elements of the UF; shrubs, hedges, green walls and roofs, plants, animals and water	Moderate	Medium	
	T9 – Tree benefits (including biodiversity)	Optimal	Low	
	T10 – Wider Environmental Considerations (including Climate Change, Air quality and Water)	Moderate	Medium	
<b>Community Framework</b>	C1 – Governance and leadership	Moderate	Medium	
	C2 – Belfast Council departmental cooperation	Good	Low	
	C3 – Utilities cooperation	Moderate	Medium	
	C4 – Green industry cooperation	Moderate	Medium	
	C5– Involvement of large private and institutional landholders	Moderate	Medium	
	C6 – Community involvement and neighbourhood action	Good	Low	
	C7 – General appreciation of trees as a community resource	Moderate	Medium	
	C8– Regional collaboration	Good	Low	
	C9 - International Reputation	Moderate	Medium
