	also safeguards against ASB behaviour and damage/repair costs which are high at nearby				
	sites such as Dunville and Falls Parks. The group is currently receiving no funding from				
	council and a revised Agreement would remedy this situation and ensure local supervision				
	and community operation of the site.				
3.5	Officers have recognised the need for significant growth in budgets to support operational				
	and maintenance activity at all new parks. It is also important that specific budgets are in				
	place to animate new spaces to ensure achievement of planned outcomes from capital				
	investment.				
3.6	Existing budgets within the Parks Events and Outreach team are stretched to support				
	planned programming and development activity at current sites. Animation of new assets				
	requires intensive delivery of programmes to kick start local activity which in some locations				
	will move towards long term self-sufficient programming. Currently there are seven new				
	parks assets, recently operating or due to come into operation, which do not have specific				
	animation budgets for early development of local community programming.				
	Financial & Human Resource Implications				
3.7	This report will commit an amount of £15,000 per annum to support a revised Agreement at				
	this site, this amount is not currently included in any revenue budgets. Consideration				
	should be given to adopting this programming budget at all new parks.				
	Asset and Other Implications				
3.8	This approach at Páirc an Lonnáin will ensure that the local community manage key				
0.0	holding of a Council asset and develop appropriate programming at the site for local				
	community benefit. The availability of a programme budget at all new parks will help to				
	ensure that positive animation is in place from the outset of the asset's life.				
	Equality or Good Relations Implications/Rural Needs Assessment				
3.9	There are no known implications.
