Call-in	

1.1 To update Members on key findings of two community consultation exercises - Forthmeadow Community Greenway Opening Hours Consultation, and Opening Hours Pilots (5 park sites) consultation exercise and agree next steps. 2.0 Recommendations 2.1 Members are asked to note key findings for both consultation exercises and consider and approve next steps as follows. Forthmeadow Greenway - Note resident feedback and opening hours preference for each section/site - Note comments on programming or further physical enhancements to the FMG - Consider trialling alternative gate opening hours (24/7 or other) for any of section/sites within the Greenway for a one-year period or alternatively agree to officers formalising standard dawn-to-dusk opening hours into the Greenways By-Laws Opening Hours Pilots - Note resident feedback on each of the 5 park sites, including combined feedback on Falls Park from both consultation exercises - Note the need for artificial lighting and additional security to ensure park safety were highlighted as barriers/concerns to extended opening hours across all five park surveys. 3.0 Main report 3.1 Members will recall that at P&C Committee on 14th January 2025 [see Appendix 1] officer's updated on planned consultation exercise into residents views on the opening hours of the Forth Meadow Greenway, as well as a separate consultation exercise - Opening Hour Pilots at 4 park sites (Botanic gardens, Falls Park, Ormeau Park and Woodvale Park). The inclusion of a further site, Belmont Park, was agreed at this time. 3.2 Since its construction the Forthmeadow Community Greenway, as well as the 5 Park sites that are the focus of the Opening hours consultation follow Council's standard 'dawn (7.30m at earliest) to dusk (10pm at latest)' opening hours pattern with times changing throughout the seasons as daylight lengthens or shortens. This report sets out the findings of both consultation exercises on extending Greenway gates/ parks opening, and sets out associated recommendations for Member's fur	1 1 - 17	Purpose of Report or Summary of main Issues
Forthmeadow Community Greenway Opening Hours Consultation, and Opening Hours Pilots (5 park sites) consultation exercise and agree next steps. 2.0 Recommendations 1.1 Members are asked to note key findings for both consultation exercises and consider and approve next steps as follows.  3.0 Main report 3.1 Members will recall that at P&C Committee on 14th January 2025 [see Appendix 1] officer's updated on planned consultation exercise into residents views on the opening hours of the Forth Meadow Greenway, as well as a separate consultation exercise - Opening Hour Pilots at 4 park sites (Botanic gardens, Falls Park, Ormeau Park and Woodvale Park). The inclusion of a further site, Belmont Park, was agreed at this time. 3.2 Since its construction the Forthmeadow Community Greenway, as well as the 5 Park sites that are the focus of the Opening hours consultation follow Council's standard 'dawn (7.30am at earliest) to dusk (10pm at latest)' opening hours pattern with times changing throughout the seasons as daylight lengthens or shortens. This report sets out the findings of both consultation exercises on extending Greenway gates/ parks opening, and sets out associated recommendations for Member's further consideration and agreement. 3.3 Forthmeadow Community Greenway Opening Hours Consultation Officers ran an open survey on Council's Your Say platform from 15th January to 27th February 2025 and held three drop-in sessions in late January at Highfield Community Centre, Springfield Park (Dam) and Falls Park Bowling Pavilion. The aim of the consultation was to capture residents' views on 24 hour /7 day a week (24/7) opening of 14 gates across the Greenway that connect on to its main lit spine, as well as any other suggestions relating to the opening hours of individual gates. It was also an opportunity to get view on concerns/ barriers to supporting and suggested programming/activities and further physical improvements required to facilitate extended hours of use.

It was also an opportunity to get view on concerns/ barriers to supporting and suggested programming/activities and

The consultation was promoted through Council's social media pages and communications to a range of stakeholders including local resident groups, environmental groups, community groups and elected members. In addition to the erection of posters (that included QR codes linking to the survey) in the local community facilities and at entrances to the Greenway, at Member's request, an additional leaflet drop took place within residential areas in proximity to the Greenway. Whilst only two of the drop-in sessions were well attended, the online survey inviting views on 24/7 opening of 14 gates on the Greenway that connect directly onto its lit spine/pathway, attracted 156 responses.

Findings

Consultation feedback confirmed community preference for existing operational hours pattern to be retained for all sections, with the exception of Glencairn Park to Forthriver Linear Park Section (Forthriver Crescent and Forthriver Road gate) where views on 24/7 opening were mixed. The overwhelming reason given by respondents for not supporting of 24/7 opening was anti-social behaviour and safety concerns.

14 alternative suggestions were made in relation to opening the various sections of the Greenway 24/7. These included retaining existing dawn to dusk opening (5), and closing later in the evening [during wintertime] 9pm (4), 9/10pm (1) and 8pm (3). 85 comments on programming or further physical enhancements were received ranging from cycling, (dog) walking/ running groups to enhanced lighting to improve safety and exercise/outdoor gym facilities.

An overview of the consultation findings for each section are summarised in the table below, and a detailed analysis of feedback on each gate within is within 'Appendix 1 – Forthmeadow Greenway Consultation – Detailed Analysis'

0	Onward of the Final in a
Section Gates	Consultation Finding
Consulted Upon	
Section 1 - Glencairn	Overall respondents were not opposed to both pedestrian
Park to Forthriver	gates consulted upon remaining open 24/7 (over 56% in
Linear Park	favour or undecided for each gate); however out of those
	recorded as living in close proximity to this Section (5
	minutes' walk or less away) – half (50%) were against
	Forthmeadow Crescent gate remaining open 24/7.
Section 2 -	Respondents overall, and those living in close proximity to the
Ballygomartin Road to	section, were marginally against the two pedestrian gates
Springfield Road	consulted upon in this part of the Greenway remaining open
Орина	24/7. (48% of respondents overall & 56% of those living 5
	mins walk away from the Section were against)
Section 3 - Springfield	Springfield Dam
Park (Dam) to Falls	Respondents overall, including those living in close proximity
` '	to Springfield Dam, were against the three pedestrian gates
Park	and one vehicular gate within the site remaining open 24/7.
	and one veniculal gate within the site remaining open 24/1.
	Falla Dark
	Falls Park
	Respondents overall, including those specifically living in
	close proximity to Falls Park, were against the two
	pedestrian and one vehicular gate consulted on within the
	Falls Park site remaining open 24/7.
	Note: Falls Parks gate opening hours were subject of both
	consultation exercises.

3.5

3.6

3.7

3.8

3.9	Section 4 - Bog Meadows Nature Reserve	Respondents overall, including those living in close proximity to the section, were against the two pedestrian gates and one vehicular gate in this section remaining open 24/7 (59% against); however the 31 residents recorded as living in close proximity to this section (5 minutes' walk or less away) – were marginally in favour or undecided (52%) about the Donegall Road (Broadway) pedestrian gate remaining open 24/7.
	Opening Hours Pilots Cor	nsultation (5 park sites)
3.10	April 2025 and held five di throughout March and Ap- extending opening hours of also an opportunity to get	ey on Council's Your Say platform from 19 th February 2025 to 16 th rop-in engagement sessions - one at each of the park sites ril. The aim of the consultation was to capture residents' views on of the parks. Similarly to the previous consultation exercise, it was views on concerns/ barriers to supporting, suggested d further physical improvements required to facilitate extended
3.11	communications to a rang groups, community groups the local community facilit survey) - a leaflet drop too	moted on Council's social media pages and through the of stakeholders including local resident groups, environmental is and elected members. In addition to the erection of posters in ites and at entrances, (all included QR codes linking to the pack place within residential areas in close proximity to each of the ere erected within the parks.
3.12	attracted a total of 1678 re Gardens (652), Ormeau F both Belmont Park (51) ar	ing views on extending opening hours at each of the park sites esponses overall, which are broken down as follows: Botanic Park (593), Woodvale Park (308), with smaller levels of interest for and Falls Park (47) - however the combined number of responses consultation exercises was 203.
3.13	at Botanic Gardens (70% undecided), and Belmont favoured opening hours p number of concerns were to facilitate extended use. highlighted as the main ph Concern over the impact of	s confirmed community support for extended park opening hours in favour, 4% undecided), Ormeau Park (70% in favour, 3% Park (71% in favour 6% undecided). Across these sites the most attern was overwhelmingly 24/7 opening however there were a raised in relation safety and ASB and the need for more security. The need for artificial lighting to ensure park safety was nysical barrier to extended opening hours across all park surveys. Of artificial lighting on wildlife was a theme across all park

surveys, with the need for ecological assessments and use of wildlife/bat friendly lighting suggested by a number of respondents.

Although there was support for Fall Parks' opening hours being extended, this was not in line with the views of the majority of overall respondents for both consultation exercise including to the more detailed Forthmeadow Greenway (FMG) consultation. Overall circa 58% of the 203 respondents for both consultation exercises were against changes to opening hours of specific gates/ park in general. There was no clear support for extending the opening hours of Woodvale Park (65% against) at this time with the main reason being ASB concerns. Detailed analysis of all park surveys are found in **Appendix 3 – 'Parks** Opening Hours Consultation - Detailed Analysis (5 sites)', and an overview of Falls Park's finding in **Appendix** – 4 'Falls Park Combined Analysis'.

3.14

The requirement for artificial lighting to facilitate extended park use and ensure safety during darker hours was raised a total of 956 times across all surveys. Members are reminded that the installation of any new lighting infrastructure would require significant

	capital investment, and that any requests for lighting schemes to be considered for any sites must be directed through to Council's Capital Programme for progression through
3.15	standard stages. This will also be an opportunity for ecological assessments to be carri out in respect to potential gate/route options, and for wildlife friendly lighting options and any associated path improvements that may be required to be explored.
	Financial & Resource Implications
3.16	There is currently no revenue budget in place to support any potential animation and patrolling of the Forthmeadow Community Greenway or any of the pilot parks should the opening hours be extended. There is currently no budget in place to fund any requests lighting schemes at the park sites or any other physical enhancements along FMG. The would be required to be taken through the Council's capital process.
	Equality or Good Relations Implications /Rural Needs Assessments
	There are no Equality or Good Relations Implications /Rural Needs Assessments associate with this report. Both consultation exercises have been equality screened.
