Dear Paddy

As part of our fundraising campaign for the Glasgow 2026 Commonwealth Games, we are reaching out to the Northern Ireland business community and to our local authorities seeking financial support.

All funds raised go directly towards athlete preparation and delivery of TeamNI at the Games next summer. The Council has a long history of supporting the Northern Ireland Commonwealth Games team, no doubt due to the large number of athletes, coaches and support staff at previous Games who have had connections to the City. While it is early in the selection process, we envisage a total team size of approximately 100 for Glasgow, with the usual large contingent from the Belfast City area.

I have attached a Partner Information Pack which provides some ideas of how a partnership with TeamNI can support the Council's objectives within both community based physical activities and high-performance sport.

Recognising the significance of working with local government we are pleased to provide a 50% discount from the commercial rate and offer this partnership at £10,000. This could be either invoiced as sponsorship or the Council may deem it appropriate to award a grant to CGNI. If you require any further information, please don't hesitate to get in touch.

Yours sincerely
