3.5	In accordance with the Council's policy for the erection of dual language street signs, surveys of all persons appearing on the electoral register plus owners or tenants in actual possession of commercial premises for the above streets were carried out and the following responses were received.																
3.6	<p>Delhi Street, BT7</p> <ul style="list-style-type: none"> • 37 occupiers (30.08%) were in favour of the erection of a second street name plate. • 5 occupiers (4.06%) were not in favour of the erection of a second street name plate. 																
3.7	<p>Lagmore Downs, BT17</p> <ul style="list-style-type: none"> • 53 occupiers (34.86%) were in favour of the erection of a second street name plate. • 1 occupier (0.65%) had no preference either way. 																

3.8	<p>Rosetta Avenue, BT7</p> <ul style="list-style-type: none"> • 37 occupiers (42.52%) were in favour of the erection of a second street name plate. • 13 occupiers (14.94%) were not in favour of the erection of a second street name plate. • 1 occupier (1.14%) had no preference either way. <p>3.9 One resident commented that 'As a Catholic who embraces Irish culture, I feel this would be divisive'.</p> <p>3.10 <u>Assessment against policy</u></p> <p>The Council's policy on the erection of a second street nameplate requires that at least fifteen percent (15%) of the occupiers surveyed must be in favour of the proposal to erect a second street sign in a language other than English, to progress to Committee for consideration.</p> <p>3.11 All the surveys listed above demonstrate compliance with the threshold contained within the Policy.</p> <p>3.12 <u>Financial and Resource Implications</u></p> <p>There is a cost of approximately £1200 to cover the cost of the manufacturing and erection of the dual language street signs. The cost for these street signs has been allowed for in the current budget.</p> <p>3.13 <u>Equality or Good Relations Implications/Rural Needs Assessment</u></p> <p>Each application for a dual language street sign is subject to an initial assessment and an elected member notification process to identify any potential adverse impacts on equality, good relations and rural needs.</p> <p>3.14 The initial assessment for Delhi Street identified that the carrying out of the survey had the potential to cause adverse impacts on the grounds of good relations. This application was subsequently screened and the draft screening identified that the carrying out of a survey in itself in this street had the potential to give rise to community tension, as could the erection of the street signs and therefore had the potential to give rise to adverse impact on the grounds of good relations. It was acknowledged however the process could alternatively assist in promoting cultural and linguistic diversity. The elected member notification carried out for Delhi Street did not identify any potential for adverse impacts. The application was presented to Committee prior to survey in line with the agreed process referencing the initial assessment and screening and the street was approved for survey by Committee and full Council.</p>
