in the visit.  There has been significant momentum in recent months and city partners have confirmed their willingness to engage in the visit. This means that, in addition to the civic request, Invest NI will lead a multi-sector trade mission to Shenyang for the first time. There will also be representation from Belfast Metropolitan College, Queen's University and Northern Ireland Connections. Given the level of commitment from city partners, the Chief Executive will also take part in the city council delegation. Council staff are working with colleagues in the NI Bureau in Beijing as well as with contacts in the Shenyang Municipality to finalise details of the visit programme.  Members are therefore asked to agree to the inclusion of an additional Officer and a translator from the Confucius Centre at Ulster University to accompany the delegation to ensure appropriate support for the programming and logistics. Members should note that the Confucius Centre has offered in-kind support by covering the costs of providing the translator.  Financial & Resource Implications The additional cost of support staff will be met within the International Relations budget.
