IMPACT	1. Insignificant	2. Minor	3. Moderate	4. Major	5. Severe
Objectives / Service Delivery	The risk will not substantively impede the achievement of the objective.	Some impact on objectives resulting in slight but redeemable deviation.	The risk will cause some elements of the objective to be delayed or not be achieved.	The risk will cause several elements of the objective to be delayed or not achieved.	The risk will cause the objective to not be achieved
Financial	Minimal financial implications	Minor financial implications (e.g. within agreed year-end budget variance tolerance levels for Departments of 2% underspend and 0.5% overspend)	Moderate financial implications (e.g. within agreed in-year budget variance tolerance levels of 2% underspend and 1% overspend)	Major financial implications (e.g. outside the agreed budget variance tolerance levels by up to 5%)	Severe financial implications (e.g. outside the agreed budget variance tolerance levels by more than 5%)
H&S	Minimal injury requiring no/minimal intervention; informal investigation; very low level impact on staffing / service delivery impact; minimal financial loss; potential for rumours / public concern	Minor injury / illness requiring medical intervention and little time off; low level impact on staffing / service delivery; risk of short term loss of public confidence; small financial loss	Moderate injury requiring medical intervention and time off; formal complaint and investigation likely; moderate impact on staff / service delivery; local public / media interest; moderate financial loss	Major injury leading to longer term incapacity / disability; multiple complaints / external agency investigation; major impact on staffing and service delivery; national public / media interest; major financial loss	Major injuries leading to death and irreversible health effects; high profile investigation and enforcement; significant impact on staff and service delivery; sustained national public / media interest; significant financial losses

	Has not occurred before or has happened rarely.	Although unlikely, there is a chance that the risk may materialise.	The outcome is in the balance, and is almost as likely to occur as not	More likely to occur than not occur	Significantly more likely to occur than not occur
