

Development Management Officer Report Committee Application

Summary	
Committee Meeting Date: 17 th January 2017	
Application ID: LA04/2015/1561/F	
Proposal: Provision of new 3G MUGA with 10m high flood-lighting, 7m hurling wall and 4.8m boundary fence with 2.2m netting above. Reconstruction of existing terracing, construction of 2 new dug-outs and resurfacing of existing carpark	Location: St Pauls GAC 98 Shaws Road Belfast BT11 9QR
Referral Route: BCC Interest	
Recommendation: Approval	
Applicant Name and Address: St Pauls GAC 98 Shaws Road Belfast BT11 9QR	Agent Name and Address: McGurk Architects 33 King Street Magherafelt BT45 6AR
<p>Executive Summary:</p> <p>The application seeks permission for provision of a new 3G MUGA with 10m high floodlighting, 7m hurling wall and 4.8m boundary fence with 2.2m netting above. Works also include the reconstruction of the existing terracing, construction of 2 new dugouts and resurfacing of the existing car park.</p> <p>Area Plan</p> <p>The site is zoned as existing Open Space in Belfast Metropolitan Area Plan 2015</p> <p>The main issues to be considered are:</p> <ul style="list-style-type: none"> • The effect of the proposal upon the character and appearance of the area. • Impact on amenity <p>The site is located within the development limits of Belfast as designated in the Belfast Metropolitan Area Plan 2015 and within an area zoned as Existing Open Space. The principle of the development is considered acceptable. The proposal will not result in a loss of open space and will not adversely affect the character of the area.</p> <p>The proposal has been assessed against and complies with the following policies- Strategic Planning Policy Statement for Northern Ireland (SPPS), Planning Policy Statement 3: Access Movement, Parking and Planning Policy Statement 8: Open Space, Sport and Outdoor Recreation.</p> <p>TransportNI has no objection subject to condition.</p>	

It is recommended that the application is approved subject to conditions as set out in the report.

Case Officer Report

Site Location Plan

1.0 Description of Proposed Development
 The proposal is for provision of a new 3G MUGA with 10m high floodlighting, 7m hurling wall and 4.8m boundary fence with 2.2m netting above. Works also include the reconstruction of the existing terracing, construction of 2 new dugouts and resurfacing of the existing car park.

2.0 Description of Site
 The site is located within the development limits of Belfast as designated in the Belfast Metropolitan Area Plan 2015 and within an area zoned as Existing Open Space. St Paul's GAC is an established recreational site with sports pitches already present on site. Residential properties are nearby

Planning Assessment of Policy and other Material Considerations

3.0 Site History
 3.1 Z/1999/2376- ST Paul's GAC, Erection of team changing rooms and addition of exit-permission granted

4.0 Policy Framework

4.1 Belfast Metropolitan Area Plan 2015

4.2 Strategic Planning Policy Statement for Northern Ireland
 Planning Policy Statement 3- Access, Movement and
 Planning Policy Statement 8 (PPS8)- Open Space, Sport and Outdoor

5.0	Statutory Consultees
5.1	None
6.0	Non-Statutory Consultees
6.1	Transport NI – No objection
6.2	Environmental Health- No Objection subject to conditions
7.0	Representations
7.1	None
8.0	Other Material Considerations
8.1	None
<p>Assessment</p> <p>Principle of Development</p> <p>The proposal is for provision of a new 3G MUGA with 10m high floodlighting, 7m hurling wall and 4.8m boundary fence with 2.2m netting above. Works also include the reconstruction of the existing terracing, construction of 2 new dugouts and resurfacing of the existing car park.</p> <p>The site is located within the development limits of Belfast as designated in the Belfast Metropolitan Area Plan 2015 and within an area zoned as Existing Open Space. The principle of the development is considered acceptable in what is designated open space area with a number of established sports pitches. The proposal will not result in a loss of open space and will not adversely affect the character of the area.</p> <p>The proposal has been assessed against Planning Policy Statement 3. TransportNI offers no objection to this proposal subject to condition</p> <p>The proposal has been assessed against OS4, OS5 and OS7 of Planning Policy Statement 8. The proposed 3G MUGA is located within an established recreational site with sports pitches already present on site. Three 10m high flood lighting columns are located at the side of the pitch. 7m high hurling wall</p> <p>Design</p> <p>The proposed development will create a 3G pitch, this will be a small training area and not used to accommodate football matches. This existing grass pitch is to be removed. The existing spectator terrace will be moved and redeveloped with the introduction of 2 new dug outs. A 7m high hurling wall is also proposed. A 2.4m retaining wall will run the length of the 3G pitch. A 2.4m high close boarded fence will be erected on top of the retaining wall. A 2.2m high netting is proposed on top of the fence. Although the retaining wall is 2.4m in height as it is cut into the existing slope, the top of the wall will sit no higher than the finished floor level of the adjacent dwelling. Having said that the nature of the topography and the rear gardens means that part if not all of the 2.4m high closed boarded fence will be visible from the rear of the dwellings. However there is already aa significant fence along the party boundary and any adjacent impact on amenity should not be unduly significant. The addition of 2.2m high netting will create a barrier of a significant scale, however given the density of the netting there should be no significant loss of light or domineering affect. This will also reduce noise nuisance and disturbance to nearby residents in Corrib Avenue.</p> <p>OS7 relates to floodlighting and states the following criteria:</p>	

- There is no unacceptable impact on the amenities of people living nearby,
- There is no adverse impact on the visual amenity or character of the locality and
- Public safety is not prejudiced

3 floodlights 10m in height are proposed around the 3G Pitch. The floodlights are near residential properties therefore a lighting assessment was requested by Environmental Health
On balance the visual impact of the floodlights will not therefore be significantly adverse or compromise the character of the area.

OS5 relates to noise generating sports and outdoor recreational activities and states the following criteria:

- There is no unacceptable level of disturbance to people living nearby or conflict with other noise sensitive uses,
- There is no unacceptable level of disturbance to farm livestock and wildlife and
- There is no conflict with the enjoyment of environmentally sensitive features and locations or areas valued for their silence and solitude.

Belfast City Council Environmental Health requested a noise assessment to be carried out

Publicity

The application has been neighbour notified and advertised in the local press. Amended drawings were received and neighbours re notified of changes 04/01/2017 No comments have been received

Consultations

TransportNI

The proposal is within an area zoned as open space in the Belfast Metropolitan Area Plan. The nature of the proposal is in keeping with the established use on site. There will be no unduly significant impact on amenity.

Having regard to the policy context the proposal is considered acceptable and planning permission is recommended.

5.0 Conditions

5.1 The development hereby permitted shall be begun before the expiration of 5 years from the date of this permission.

Reason: As required by Section 61 of the Planning Act (Northern Ireland) 2011.

The hard surfaced parking areas shall be constructed and permanently marked in accordance with approved Drawing No.03A bearing the date stamp Planning Service Received 30 September 2016. No part of these hard surfaced areas shall be used for any purpose at any time other than for the parking and movement of vehicles.

Reason To ensure adequate in-curtilage parking in the interests of road safety and the convenience of road users.
