Director of City & Neighbourhood Services
Belfast City Council

To Nigel Grimshaw;

I write on behalf of East Belfast Football Club. As stipulated in the Partnership Agreement with the Belfast City Council, for Tommy Patton Playing Fields, I am writing a formal request seeking permission to establish a portacabin on the shared grounds.

The main purpose of the portacabin is to provide a social space for players, attendees and officials before and after football matches. All costs in relation to the portacabin will be funded independently by East Belfast Football Club. Furthermore, East Belfast Football Club will take full responsibility for the management, upkeep and professional instalment of the portacabin and meet all required and relevant standards set by the Belfast City Council to approve its instalment.

I have attached both the picture of the portacabin and where it will be positioned below. I would appreciate a response as soon as possible, as the football season is already underway, and any queries regarding the matter please contact me on 07982612176.
