

Youth Employment Academy

Councillor O'Hara to move:

“This Committee commends the employability and skills initiatives adopted by the Council to help people gain employment. These initiatives include sectoral Employment Academies which in partnership with employers train people who are out of work to apply for specific job vacancies.

In line with this successful model and as part of the City Youth Pledge, we agree to pilot a Youth Employment Academy. This will support people aged 16+ to access part time employment (8-16 hour posts) in retail and hospitality.”
