**Subject:** Re: Haymarket Entertainments Liscence

Dear Darren

In regard to the application of an outdoor entertainments licence valid until 1am, we would like to request this for a number of reasons. We believe that this would allow continuity with our indoor entertainments licence, allowing both to provide entertainment until the same time. This would also aid use to positively contribute to the night-time economy, as we begin to move out of the restrictions. We are also aware of other licenced premises in the surrounding area that have a 1am outdoor entertainments licence, and we would not want to be disadvantaged as we begin to regenerate a previously underutilised area of Belfast's City Centre. Furthermore, with a later licence, it allows us to stagger the leaving times of guests and maintain our minimal level of noise disturbance.
