Tactical Regeneration Programme
Appendix B- Tactical Regeneration: Emerging
Projects

Tactical Regeneration

Quick Low Cost High Impact

5C's Revitalisation Scheme

Proposed project involving:

- Rejuvenating building facades;
- Promoting active frontage to street level units;
- Innovative floral displays and introducing greening;
- Imaginative wayfinding initiatives;
- Inclusion of an enhanced lighting scheme;
- Interactive elements to provide points of interest for all, including incidental play

Great Victoria Street- Current Condition

Street Clutter

Derelict Properties

Tagging / Graffiti

Under-utilised spaces

Dead Frontages /
Vacancy

Dead Frontage

Car Dominance

Vacant properties

Tactical Regeneration

Quick Low Cost High Impact

Potential Scheme: Great Victoria Street

Potential scheme to be developed to support future funding applications:

- Rationalising existing street furniture, to remove barriers to pedestrian access;
- Promoting active human scale frontage;
- Creating innovative green spaces;
- Designing imaginative wayfinding through work with local artists that celebrates local heritage.

Tactical Regeneration

Quick Low Cost High Impact

Shaftesbury Square- Current Condition

Tactical Regeneration

Quick Low Cost High Impact

Potential Scheme: Shaftesbury Square

Potential scheme to be developed to support future funding applications:

- Innovative wayfinding and signage that promote walkability;
- Creating flexible meeting spaces that provide connectivity to the surrounding streets;
- Creating innovative public realm spaces that are safe, clean and prioritise people;
- Enhancing the existing green infrastructure of the area;
- Creating spaces that celebrate and enhance the local character and heritage of the area.
